Epson Stylus® CX6500

Read these instructions before using this product.

1 Unpack

- 1 Make sure you have all the parts shown here. If any parts are missing, contact Epson® as described on the back of this sheet.

Epson Stylus CX6500

Software
CD-ROM

Quick Guide

Paper support

Ink cartridges

Feeder guard

- 2 Remove all the blue packing tape from the printer.

Caution: Do not remove the yellow sticker until instructed.

- 3 Lift up the scanner.

- 4 Peel off the tape from the ink cartridge holder.

- 5 Close the scanner section.

2 Attach the Parts

- 1 Insert the paper support into the slots behind the printer, as shown.

- 2 Lower the feeder guard into the slots behind the scanner lid. (Insert the hinges on the feeder guard into the corresponding slots on the printer.)

3 Plug In and Turn On

- 1 Plug the Stylus CX into a grounded electrical outlet.

- 2 Press and hold the On button until the green lights come on.

4 Install Ink Cartridges

Note: The ink cartridges that came with your printer have a lower yield due to the ink charging process. This process is carried out the first time you turn on your printer and guarantees better performance.

Caution: Keep ink cartridges out of the reach of children and don't drink the ink.

1 Wait until you see "Initial Charge" displayed on the LCD screen.

2 Lift up the scanner.

3 Shake the package of ink cartridges four or five times. Then remove the cartridges from the package.

Don't touch the green part

Caution: You must install all the cartridges and leave them installed for all types of printing. To avoid damaging the Stylus CX, never move the print head by hand.

4 Open the ink cartridge cover.

5 Place each cartridge, one at a time, in its holder.

6 Press down on each cartridge until it clicks into place.

7 Close the ink cartridge cover, then close the scanner.

The Stylus CX begins charging the ink delivery system.

Charging takes about 2 minutes. The Stylus CX makes various sounds and "Charging . . ." appears on the LCD screen. Don't turn it off while "Charging . . ." appears, or you'll waste ink.

continue

5

Select the Language

To change the language of the control panel interface from English to Spanish, Portuguese, or French: Press the **Setup** button (1), then press the top button on the left side of the LCD screen (2) until **Language** appears. Press the **Color** button (3), then press the bottom button on the right side of the LCD screen (4) until the language you want appears. Press the **OK** button (5) to save the setting.

6

Load Paper

1 Extend the output tray.

2 Slide the edge guide to the left.

3 Place a stack of paper against the right side of the sheet feeder, but don't push it in. Slide the edge guide against the paper.

Turn over ➔

Install Software and Connect to Your Computer

The software works with Windows® 98SE, Me, 2000, and XP, and Macintosh® OS 9.1.x to 9.2.x and 10.2.x to 10.3.x. Follow the steps below (for Windows), or the steps in the next column (for Macintosh).

Note: There is a Security Lock program on your software CD-ROM that lets you prevent unauthorized use of your CX6500. See the *Quick Guide* for instructions on installing and using it.

Windows

- 1 Make sure the Stylus CX is not connected to your computer, then turn on your computer.

Note: If you see several New Hardware Wizard screens, click **Cancel** for each of these screens and disconnect your Stylus CX. You can't install your software that way.

- 2 Insert your Stylus CX software CD-ROM in your CD-ROM or DVD drive.

- 3 Select **English**.

Note: If you don't see this screen, do the following:

For Windows XP: Click **Start** > **My Computer**. Then double-click the **Epson** CD-ROM icon.

For Windows 98/Me/2000: Double-click **My Computer**. Then double-click the **Epson** CD-ROM icon.

- 4 Wait until you see this screen, then click **Install**.

- 5 Read the license agreement, then click **Agree**. Several messages display on your screen.

- 6 When you see this screen, make sure your Stylus CX is turned on, then lift up the scanner.

- 7 Remove the yellow sticker and plug the square end of the USB cable into the USB port on your Stylus CX. Then route the cable in the slot as shown.

Caution: Make sure the USB cable fits securely into the slot. The USB connector may snap if the cable is not routed correctly in the slot and the scanner is closed with force.

- 8 Close the scanner carefully.

- 9 Plug the flat end of the cable into any available USB port on your computer.

- 10 Click **Next** and follow the instructions on the screen to install more software.

Note: It will take several minutes to install the software. Don't cancel the installation.

- 11 At the completion screen, print a test page, if desired. When done, click **Next** to install additional software.

- 12 Follow the instructions on the screen to install additional software. When done, click **Exit**.

- 13 When you see the Product Registration screen, register your Stylus CX as instructed, then remove the CD-ROM and restart your computer.

Now you're ready to copy, scan, and print. See the *Quick Guide* or your on-screen *CX6500 Reference Guide* for instructions.

Macintosh

- 1 Insert your Stylus CX software CD-ROM into your CD-ROM or DVD drive.

- 2 Double-click the **Epson** CD-ROM icon, if necessary. Then double-click the **Epson** installer icon. You see this screen:

- 3 Click **Install**.

- 4 Read the license agreement, then click **Agree**.

Note: If you're installing on Macintosh OS X, enter your administrator name and password, if necessary.

- 5 **For Macintosh OS X:** Continue with the following steps.

For Macintosh OS 9: Follow any on-screen instructions, then continue with step 9.

- 6 Click **Install** at the EPSON Scan Installer screen to install the scanner portion of your software.

- 7 When the software finishes installing, you see this screen. Click **Quit**.

- 8 Follow the on-screen instructions to install additional software.

Note: Click **Quit** when each part finishes installing.

- 9 When installation is complete, you see the Additional Software screen. Follow the instructions on the screen to install the software. When done, click **Exit**.

- 10 When you see the Product Registration screen, register your Stylus CX as instructed, then remove the CD-ROM and restart your Macintosh.

- 11 Make sure your Stylus CX is turned on, then lift up the scanner.

- 12 Remove the yellow sticker and plug the square end of the USB cable into the USB port on your Stylus CX. Then route the cable in the slot as shown.

Caution: Make sure the USB cable fits securely into the slot. The USB connector may snap if the cable is not routed correctly in the slot and the scanner is closed with force.

- 13 Close the scanner carefully.

14 Plug the flat end of the cable into any available USB port on your Macintosh.

Follow the instructions below to add the Stylus CX to the Print Center or Printer Setup Utility (for OS X) or the Chooser (for OS 9).

Selecting the Stylus CX for Mac® OS X

1 Open the OS X Applications folder, then open the Utilities folder and start Print Center or the Printer Setup Utility.

If you see this screen, click Add.

2 On the Printer List screen, click the Add button.

3 On the next screen, select EPSON USB from the pop-up menu.

4 Click Stylus CX6500.

Note: If the CX6500 doesn't appear, make sure it is turned on and securely connected to your Macintosh.

5 Click the Add button. You see the Stylus CX6500 in the Printer List.

6 Quit Print Center or the Printer Setup Utility. Now you're ready to copy, scan, and print. See the Quick Guide or your on-screen CX6500 Reference Guide for instructions.

7 If you use Classic Mode applications, install the software on OS 9 also.

Selecting the Stylus CX for Mac OS 9

1 Open the Chooser from the Apple® menu.

2 Select CX6500 Series, then select your USB port and turn on background printing.

3 Close the Chooser. Now you're ready to copy, scan, and print. See the Quick Guide or your on-screen CX6500 Reference Guide for instructions.

Any Problems?

If the red ! error light is on, check the message on the Stylus CX. Try turning the Stylus CX off and then back on to clear the error. If your problem is listed here, try these suggestions. For more information, see your Quick Guide, software Help, or on-screen CX6500 Reference Guide.

The Found New Hardware Wizard appears on your screen.

Click Cancel and follow the steps in section 6. Disconnect the Stylus CX before installing the software.

You see an error message when you try to print or scan.

Make sure your Stylus CX is connected to your computer, plugged into a power source, and turned on.

The Stylus CX doesn't work.

Make sure you removed the tape from the ink cartridge holder, as described in section 1. Turn the Stylus CX off and then on again.

Make sure the ink cartridges are pushed all the way down.

Check the LCD screen to see if you or someone else set the Security Lock. See your Quick Guide for details.

Make sure your Epson Stylus CX6500 software is installed correctly.
